

At Cinemalite we'll do whatever we can to help you put on a memorable movie night, enjoy that big TV event, or even stage the ultimate gaming tournament. We can also offer advice about films and safety to make your big night hassle free.

If you're looking for a unique idea for:

- Birthday parties
- Weddings
- Community events
- Caravan park and camping grounds
- School and charity fundraisers
- Sporting events
- Poolside or In-Pool Dive-in movies
- Drive-in movies

Our awesome inflatable screens and packages are the ideal solution.

Turn a park, a paddock or even your own backyard into an outdoor movie party for the kids, or a dance party with a DJ in front of one of our giant 3.6 metre screens.

All our equipment is designed with safety in mind, because as far as we're concerned, the less mains power cables required, the better. Our screens are fully inflatable and once inflated, need no further power, (great around pools!). Although powerful, our sound system speakers are also very safe, as being powered by the AV centre, they don't need 240v power.

Your cinema event is completely setup by one or two of our team, who will then do everything they can to ensure your night runs smoothly and then pack it all up in under 30 minutes.

And remember we can set up our unique screens just about anywhere - even on a swimming pool!

Our standard outdoor cinema package consists of a big 3.6m (12ft) inflatable screen and everything else for a great night of outdoor cinema – just add people!

Our price last summer was close to \$1000.00 for the same great night. Our Aussie dollar is going well so we want to pass the good fortune along to you!

Summer Special..... just \$495.00 per night.*

*Sydney metro area. For boundaries see website. Conditions apply.
